Summary

As a highly skilled Frontend Developer, I possess a wealth of experience and expertise in developing visually stunning and engaging web applications. With a passion for creating intuitive and responsive user interfaces, I pride myself on delivering exceptional user experiences that leave a lasting impression on visitors.

My technical proficiency in a wide range of frontend development tools and frameworks, including HTML, CSS, JavaScript, React, Vue, and Angular, allows me to deliver top-notch solutions that meet the highest standards of quality and functionality. I possess a keen eye for design, and I strive to create websites that not only look great but also work seamlessly across different devices and browsers.

In addition to my technical skills, I am a proactive and collaborative team player who enjoys working with cross-functional teams to achieve project objectives. I possess excellent communication skills, and I am always ready to share my ideas and insights to help improve the overall product.

Whether I am creating a new website or enhancing an existing one, I always put the needs of the end-users first, and I am dedicated to ensuring that they have the best possible experience while interacting with the web application. If you are looking for a talented Frontend Developer who can deliver exceptional results, I am the ideal candidate for your project.

Experience

Senior Software Engineer

Heny

Jan 2023 - Present (4 months)

As a Senior Frontend Developer at Heny, I play a critical role in leading the development of our web applications. Leveraging my extensive experience in frontend development, I am responsible for overseeing the design and implementation of user interfaces that are intuitive, responsive, and engaging.

In my role, I work closely with our product and design teams to understand our users' needs and translate them into effective user interface designs. I also mentor and guide other front-end developers on the team, ensuring that our development processes and standards align with industry best practices.

As a Senior Frontend Developer, I possess a deep understanding of a range of front-end technologies, including HTML, CSS, JavaScript, React, and Vue. I have experience in developing complex and scalable frontend architectures that are easy to maintain and update.

In addition to my technical expertise, I also have excellent communication and leadership skills, enabling me to work collaboratively with other developers, designers, and stakeholders to ensure that our projects are delivered on time and to a high standard.

Frontend Developer

Henry

Dec 2021 - Mar 2023 (1 year 4 months)

As a frontend developer at Henry, I am responsible for designing and implementing the user interface of our web applications. Working closely with our product and design teams, I develop responsive, interactive and engaging interfaces that enable our users to easily navigate and use our applications.

Web Developer

Juni Ghana Limited

Nov 2020 - Apr 2021 (6 months)

As a Web Developer at Juni Ghana Limited, I design and develop innovative websites with user-friendly interfaces that enhance customer engagement. I work collaboratively with cross-functional teams to ensure seamless integration and deployment of web applications. My expertise in HTML, CSS, and JavaScript helps me create responsive designs that work seamlessly on multiple devices. I thrive in a fast-paced environment and strive to meet project deadlines while maintaining high standards of quality.

Full Stack Developer

VICELIVE

Feb 2019 - Jul 2019 (6 months)

As a full-stack developer at Vicelive Studios, I had the opportunity to work on a variety of exciting projects using Vue.js and Node.js. My role involved collaborating with a team of developers, designers, and project managers to deliver high-quality solutions for our clients.

One of the most significant projects I worked on was a web application that allowed users to create and customize their real experiences. I was responsible for developing the front end using Vue.js, which allowed users to easily create and modify their experiences through an intuitive interface. Additionally, I integrated the frontend with the backend, which was developed using Node.js and allowed for the seamless rendering of these experiences in virtual reality.

Website Developer

EQTECH AFRICA(Pty) Ltd

Jul 2017 - Dec 2017 (6 months)

As a contract web developer at EQTECH AFRICA(Pty) Ltd, I was responsible for designing and developing user-friendly and responsive websites for various clients. I worked closely with the design and content teams to ensure the final product met the client's specifications and exceeded their expectations. I also utilized various programming languages and tools to optimize website performance and functionality. Overall, my time at EQTECH AFRICA(Pty) Ltd allowed me to hone my web development skills and collaborate effectively with diverse teams to deliver high-quality projects.

Information Technology Specialist

Ghana Ports and Harbours Authority

Jul 2015 - Sep 2016 (1 year 3 months)

As an Information Technology professional at Ghana Ports and Harbours Authority, I played a vital role in ensuring the seamless functioning of technology infrastructure and systems. I leveraged my expertise to optimize IT operations, streamline processes, and enhance the overall efficiency of the organization.

My responsibilities included overseeing network and server administration, software and hardware upgrades, data management, and cyber security protocols. I worked closely with cross-functional teams to identify and address technology-related challenges and implement innovative solutions to improve productivity and reduce downtime.

My tenure at Ghana Ports and Harbours Authority allowed me to develop my skills in project management, technical support, and team leadership, and I am proud to have contributed to the organization's success through my role in the IT department.
